Purella Features :

- Fully automatic
- Built in SMPS to operate within 160 V- 290 V AC Voltage
- Push-fit connectors for leak- proof and maintenance free performance
- Suitable for water up to 2000 PPM TDS
- Dry run protection of pump
- Unique membrane cleaning system to ensure superior & effective membrane performance
- ABS Construction and corrosion free life span
- RO with UV/UF Filtration
- Water available on demand even without power
- Ensures a constant refill into the tank & makes water available
- TDS controller to adjust desire taste

Purella Technology:

Specifications :

Model Type	Wall mount with tank
Model	R-Platina
Production capacity	12-15 LPH
Reservoir tank capacity	8 ltrs
Membrane	Thin Film Composite
Purifying Technology	Reverse Osmosis
Filtration Stages	7
Unit Dimension(LxBxH)in mm.	390x200x540
Unit Weight (Approx)in Kgs.	8.4
Power Rating in watts	40 W
TDS reduction in % (approx)	90%
Duty Cycle	5 hours

RECOMMENDED INPUT WATER CONDITIONS

Total Dissolved Solids	2000ppm
Total Hardness	250 ppm
input Water Temperature	10~40c
pH	6.5~8.5
Iron Content	.1 mg/li (max)
Inlet Pressure	.5kg/cm2 (min)

As part of the continuing research & development programme, specifications are subject to change without prior notice.
