

PROMISES ARE REALIZED WHEN TECHNOLOGY MEETS WISE.

Purella offers a wide range of RO Water-Filtration systems, which bring happiness, through health surety, into your lives, using innovative and advanced technologies. Our products ensure ease of installation and functionality, space optimality, least amount of maintenance and sense of responsibility towards the environment.

We understand the value of water.

HENCE, WE DIRECT OUR ACTIONS TOWARDS ADDING VALUE TO IT
WITH TECHNOLOGICALLY INTELLIGENT PURELLA PRODUCTS!

ZERO DISEASE
caused by bacteria,
virus and protozoa

PURELLA RO PURIFIERS

**Model Type:
UTCBLUE
WITH TANK**

PURELLA VALUE:

**NATURAL
WATER TASTE**

**USER
FRIENDLY**

SPACE SAVING

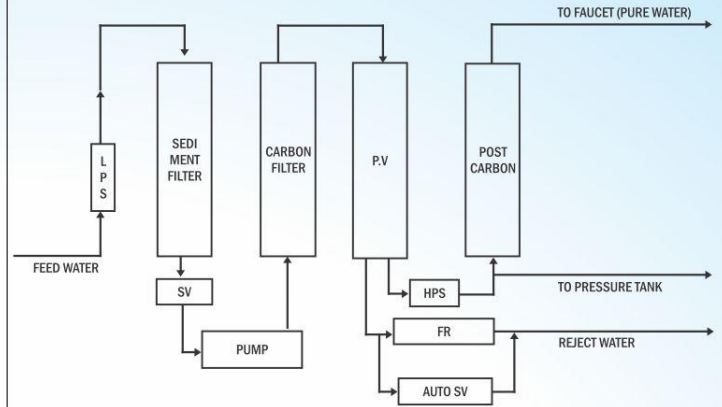

**LESS
MAINTENANCE**

PURELLA FEATURES:

- Built in SMPS to operate within 160 V- 290 V AC Voltage
- Push-fit connectors for leak- proof and maintenance free performance
- Suitable for water up to 2000 PPM TDS
- Dry run protection of pump
- Unique membrane cleaning system to ensure superior & effective membrane performance
- ABS Construction and corrosion free life span
- Water available on demand even without power
- Ensures a constant refill into the tank & makes water available on demand

As part of the continuing Research & Development programme, specifications are subject to change without prior notice.

Purella Technology:

SPECIFICATIONS:

MODEL TYPE	UNDER THE COUNTER UTCBLUE
Production Capacity	8~10LPH
Hydrapneumatic	
Tank Capacity	11 ltr.
Membrane	Thin film composite
Purifying Technology	Reverse Osmosis
Filtration Stages	5 stages
Dimension (LxBxH)	360mmx195mmx470mm
Weight (Approx.)	10.5 kgs
Power Rating	30W
TDS Reduction in %	90%
Duty Cycle	5 hours

RECOMMENDED INPUT WATER CONDITIONS

Total Dissolved Solids	2000 ppm
Total Hardness	250 ppm
Input Water Temperature	10~40c
pH	6.5 ~8.5
Iron Content	.1 mg/li (max)
Inlet Pressure	.5 kg/cm2 (min)
